BOARD OF TRADE LUNCHEON TONIGHT

The inaugurating luncheon of the new Blairmore Board of Trade is to be held tonight at 7.30 at the Cosmopolitan hotel.

DISTRICT GOLF TOURNAMENT

Those who attended the golf tournament held at Cranbrook on Saturday last under the auspices of the combined East Kootenay and Crow's Nest P.A.S. Golf Associations thoroughly enjoyed themselves.

Teams competing were from Medicine Hat, Lethbridge, Macleod, Blairmore, Fernie, Waldg and Cranbrook.

Blairmore was represented by J. B. Wilson, J. H. Farmer, A. J. Kelly and Dr. Hoar, three of whom brought back the majority of prizes awarded.

In the foursomes, Fernie came first and Cranbrook second.

In the championship flight of eight players, the winners were Mr. Watson, of Fernie, first; A. J. Kelly, of Blairmore, consolation.

First flight of eight players resulted in Mr. White, of Elkton, winning, with J. H. Farmer, of Blairmore, accepting the consolation. In the third flight, Dr. Hoar, of Blairmore, came off winner. The latter, for a beginner, played his 50 holes in splendid form.

At a meeting which followed, it was unanimously decided that next year's meet would be at Blairmore.

The boys had the time of their lives, playing thirty-six holes of golf a day and taking in dancing, swimming, etc., during the intermissions. In spite of the fact that this country is dry, Cranbrook provided the moisture and there's nothing dry about the Cranbrook boys or their system of entertaining.

BLAIRMORE WINS FIRST PRIZE

B-Belvue Second, Michel Third.

The mine rescue and first aid competitions held at Fernie on Monday under the auspices of the East Kootenay Mine Safety Association proved most interesting, and were witnessed by over a thousand people.

Eight teams took part in the mine rescue competitions and prizes were won as follows:

First Prize—Blairmore No. 2 Team; David Martin, captain; C. Thomson, vice-captain; William Turner, Alex. McVeay and Carl Smith; Prizes, silver cup and gold watch for each member of team.

Second Prize—Bellevue No. 1 Team; Thomas Bradley, captain; Albert Hallworth, vice-captain; Walter Warn, J. Milnes, Andrew Goodwin and F. Moody, spare.

Third Prize—Michel No. 1 Team; Archie Haldane, captain;

The other entries finished in the following order:

Fourth—Fernie No. 1.

Fifth—Michel No. 2.

Sixth—Fernie No. 2.

Seventh—Coal Creek No. 2.

Eighth—Coal Creek No. 1.

In the Second First Aid competition there were five entries. The prize winners were:

First—Fernie, Joe Hamar, captain.

Second—Coal Creek, H. Puckey, captain.

Third—Bellevue, J. Milnes, captain.

E. C. Costick, B. Milnes, Walter Warn, Fred Padgett.

Michel and Coleman held respectively fourth and fifth places.

In the Ladies First Aid the prize winners were:

First—Coal Creek No. 2, Mrs. Milley, captain.

Second—Michel, Mrs. Whalley, captain.

Third and fourth places were held by Fernie and Coal Creek No. 1 respectively.

In the Junior First Aid the following were the prize winners:

First—Fernie Boy Scouts, patrol leader J. Lamont, captain.

Second—Coal Creek No. 1, S. Fowler, captain.

Third—Michel, J. Beswick, captain.

Lethbridge Boy Scouts and Coal Creek No. 2 tied for fourth place, while Bellevue and Hillcrest came fifth and sixth respectively.

The Blairmore boys are to be congratulated for in the face of the misfortune in losing one of their instructors—the late Freddie Allott, who had hoped to assist them—they should win first place.

The local boys returned on Monday night's train, bringing with them the coveted gold watches, which are beautifully engraved.

The boys speak in the highest terms of the courtesy accorded them from all sides while in Fernie, and particularly the committees and superintendents in charge who did all in their power to ensure the success of the occasion.

Field sports were carried out as a side issue for entertainment of those not so much interested in the competitions.

FATAL MINE ACCIDENT AT INTERNATIONAL

An accident occurred in the International Coal Co's mine at Coleman on Tuesday afternoon, which resulted in the almost instant death of a Russian miner named John Ondrus.

He was working in a pit when a small portion of cap rock fell on his head, fracturing his skull.

Ondrus was well known through this district, having worked in the mines for a number of years. Up to but a year or so ago he resided in Bellevue.

He was forty years of age and leaves a wife and several small children.

Interment takes place at Coleman tomorrow.

CONTRACT LET FOR SIX NEW COTTAGES

Contractor E. J. Pozzi has just received a contract from the West Canadian Collieries for the erection of six modern cottages in West Blairmore on State Street. Work will begin immediately, as it is understood that cottages have already been engaged and families are waiting to move into them.

At the present time there is a great shortage of houses in Blairmore and accommodation for about twenty families is required.

Rev. Father McCaffray, of Lethbridge, is the guest this week of Rev. Father Cosman at St. Anne's rectory.

Through the overturning of an automobile near Fernie on Sunday evening last, caused by the breaking of the steering gear, Norman Huston, of McLaren's Mill, sustained rather serious injuries. He was pinned beneath the car for a considerable time before being extricated. He is now rapidly mending.

A meeting of the local I. O. O. F. will be held at the home of Mrs. D. R. McKay on Tuesday evening next, September the 12th, at 7.30. All members are requested to attend.

T. B. Martin, lawyer, of Macleod, who had been attending the golf tournament at Cranbrook, stopped off here for a day returning.

Convert Your Victory Bonds

The Minister of Finance offers to holders of Canada's Victory Bonds issued in 1917 and maturing December 1, 1922, the privilege of exchanging the maturing bonds for new bonds, bearing 6½ per cent. interest and maturing in 5 or 10 years. A bonus of a full month's interest will be given to those who avail themselves of the conversion privilege not later than September 30.

Selected Immigration Is The Solution Of Economic Problems

Toronto.—Speaking as a westerner at the luncheon of the directors of the Canadian National Exhibition Association here, Hon. Charles Stewart, Minister of the Interior, took occasion to express the opinion that the divisions between Eastern and Western Canada would soon pass away. He assured those present that there was no desire on the part of Western Canada to propagate anything that would separate east and west.

Mr. Stewart said he hoped the bumper crop forecast in the west this year would mean more wholesome business from that direction than before.

"Selected immigration is the solution of Canada's economic problems," declared Mr. Stewart. "The settlers needed," he continued, "are those people of agricultural experience who will go on the land and stay there."

Mr. Stewart said it would not be good policy to encourage business, professional and technical men to come to Canada. "We have no place to put them," he added. "We must be very much concerned about the quality of settlers we admit, and also about getting good ones in large quantities."

Worm Turns In Russia

London.—A dispatch to the Daily Mail from Berlin says a report has been received in the German capital that the Odessa Soviet has purged itself of Bolshevism, proclaimed its independence of Moscow, and called upon all citizens to unite against the Communist usurpers. The report said that the whole of South Russia has joined with Odessa and that the revolution has been attended by bloody encounters.

Germany Rejects Proposals

New Demands of Reparations Commission.—The cabinet has decided to reject new demands sent through Herr Schroeder, of the German finance ministry, by the reparations commission in Paris, for some productive or gold guarantees as a condition to the granting of a moratorium to Germany.

The new demand came unexpectedly. The German envoy to Paris, informed Chancellor Wirth that the reparations commission was not wholly disposed to reject the German proposal that coal and timber deliveries should be contracted for directly between the reparations commission and German producers, for which the German Government would assume responsibility, but that the commission desired to know what "active" guarantees the German Government was in a position to offer in return for a suspension of gold payments.

Soviet Gives Power To Political Police

Arrests and Exile Without Trial Greatly Reign of Terror.

Riga.—Revival by the Russian Soviet Government of the old Czarist "administrative exile" has restored to the political police the power of dealing secretly with the Soviet's enemies.

The series of sudden arrests and exile without trial of scores of persons unfriendly to the Soviet regime, or of those suspected of having counter-revolutionary tendencies has created a new reign of terror throughout the country, according to advices reaching here.

Coal Reported In Port Arthur District

Mining Engineer Sure Locality Is Undermined With Anthracite.

Port Arthur, Ont.—Jules Cross, reputed one of the best known and most reliable mining engineers in the district, stated that he is sure that this locality is undermined with coal.

"I have seen outcroppings of coal behind the old high school building in Port Arthur," he said. "This is anthracite coal, burning to a slight ash and throwing out an intense heat. Whether it exists in large enough quantities to make it of any commercial value has not yet been determined."

Practical Effort Made In Manitoba To Assist The Farmers

ONTARIO MOTHER HELPS DAUGHTER

Mothers—watch your daughter's health. From the time she reaches the age of twelve until womanhood is established she needs your care and advice. Many women have suffered years of ill-health through lack of such care during this time.

Lidia E. Pinkham's Vegetable Compound is a splendid medicine for girls and women. For nearly fifty years it has been helping mothers and daughters. Let it help you and your daughter.

Hamilton, Ontario.—"When my daughter was thirteen and until she was fifteen she suffered every month so that she could hardly move around the house and when she would have the pains in school she would be carried home. Besides the pains and irregularity she also had headache, dizzy, and faint spells, and sometimes in her back. I saw your advertisement in the 'Hamilton Spectator' and told Lidia E. Pinkham's Vegetable Compound for her. She does not have the least bit of trouble now, and we both recommend your medicine. She works in a candy shop now and seems well and strong. I give you permission to publish the letter as a testimonial."—Mrs. J. P. CLARKE, 76 Walnut St., South, Hamilton, Ontario.

W. N. U. 1436

Over 300 Are Drowned

Great Loss of Life When Vessel Sinks Off Chilean Coast.

Santiago, Chile.—Only six persons, including two passengers, out of a total of 323 on board the Chilean steamship Italia were saved when the vessel sank off the Chilean coast near Coquimbo.

The steamer sailed from Coquimbo with 250 passengers aboard. Of these 90 were laborers proceeding to Antofagasta.

Heavy cross seas damaged the rudder of the vessel, which was overloaded. In this helpless condition and caught in a strong southwest gale, the steamer was swept time and time again by the enormous waves. She listed badly and in a short time sank by the bow.

The Chilean warship Chacabuco, which sped to the rescue, found only scores of drowned floating on the ocean and remnants of wreckage. One boat carrying 30 persons capsized and 17 perished.

Another boat with many passengers and sailors aboard, and in which Captain Caldera, who had been previously injured, was placed, also capsized near the beach. Only two passengers and one sailor of this group escaped.

The Way They Have In Ireland

Man Charged With Betraying Collins Is Shot By Armed Band.

Cork.—Charged with having driven the automobile in which Michael Collins rode to his death, Edward Laker, an Englishman, was taken from his residence by an armed band and shot. His wounds were not mortal, however, and after feigning death for several hours he was carried and made his way to a hospital. Pinned to his breast was a tag inscribed: "Convicted spy, I.R.A. beware."

What One of the Best Known Travellers in Canada Says

"Now I am going to give you an unswerving testimonial, as they say in the patent medicine advertising. Hereafter I have a profound contempt for patent medicines, particularly so-called 'Liniments.' This is due to the reason that I have been treated with a sturdy constancy. One day just last fall after a hard day's tramp in the snow of Montreal, I developed a severe pain in my leg and, of course, like a man who has never had anything wrong with him physically, I caught it rather obstinately. 'I'll rub this with some liniment I have.' 'Go ahead,' I said, 'just to see what it does.' 'Well, in the corner with a bottle of 'Liniment' and get busy. Before me the pain disappeared in five minutes after, and you can tell the world I said so." (Signed) FRANK E. JOHNS, Montreal.

Power From Ocean Waves.

White Plains, N.Y.—The Stodder Wave Power Corporation, capitalized at \$25,000, filed a certificate of incorporation here with the county clerk. The company, which will begin business at New Rochelle, sets forth that its object is to develop and promote the utilization of the power of the ocean waves as a means of increasing the world's productivity and to conserve coal, oil, labor and other resources.

Prohibition Defeated In Sweden.

Stockholm.—A majority of 44,545 against prohibition is shown by the unofficial tabulation of the vote cast in Sunday's referendum throughout Sweden. These figures show: Against, 942,129; for, 897,584.

Cotton Shed Burns.

Winnipeg.—The cotton shed of the Alaska Bidding Co. (Stimmons, Limited) was gutted by fire Aug. 25, the damage amounting to between \$45,000 and \$50,000. The shed contained twenty carloads of cotton.

May Scrap Old Warehips.

London.—The Times understands that arrangements have been made for sending a number of old British warships to Germany to be broken up. As the admiralty's policy of late has been to refuse Germany offers for old vessels as scrap, it is assumed those to be sent are among a group sold several months ago.

Patronize your local merchants and thereby help to build up your home town and community.

WESTERN EDITORS

H. W. Smith, Editor and Proprietor of The Times, Ogema, Sask.

British Preparing For Unemployment

Industry Reviving But Many Will Be Out of Work.

London.—Heretofore the Government Committee which is dealing with the unemployment problem has only succeeded in laying down broad lines of policy. The official advisors of the Government report slow but steady improvement in trade and express the belief there would be a marked revival of industry this fall.

Nevertheless the committee anticipates that the total number of unemployed persons during the coming winter will not be less than 1,000,000, and plans are being considered for dealing with the evil directly by providing relief work and indirectly by promoting trade.

Britain Will Pay Debts

Wants Moral Support of U.S. But Not Financial Help.

London.—Prime Minister Lloyd George in conversation with Col. E. M. House, reiterated Great Britain's intention to discharge her present debt to the United States to the last farthing. Col. House told the Associated Press. Col. House said the Premier begged him to tell those at home that Great Britain was not seeking financial assistance from the United States, but desired very earnestly her continued moral support.

Near Accident for Viscount Lascelles.

London.—Viscount Lascelles narrowly escaped serious injury in the paddock at the York racecourse from the kick of a horse. The three-year-old Backwood, which was on the way to the post, lashed out with both feet as he passed Lascelles, catching him on the chest. The Viscount, however, was almost out of range, and was touched only slightly. He turned immediately to Princess Mary, nearby, assuring her that he was not injured.

Wainwright Buffalo for London Zoo.

Ottawa.—A pair of buffalo from the great Canadian herd at Wainwright, Alta., will be shipped to England this fall; it is announced by the Dominion Parks Branch, for the purpose of introducing new blood into the Zoological Gardens, London.

Montreal Population Grows.

Montreal.—An estimated population of 863,188 for Greater Montreal is made by the publishers of a local directory. The population of the city proper is placed at 797,838.

TURN 'EM ROUND

Greek Morale Suffers As A Result Of The Recent Turkish Offensive

Loss of Life In B.C. Mine

Cumberland, B.C.—Nine men lost their lives and 17 were injured when an explosion caused a small cave-in in a coal mine here, operated by the Canadian Collieries Dunsmuir, Limited. Three of the dead men were whites. Their names are Robert Dunsmuir, John Gibson and John Johansen. Four of the dead were Japanese and two Chinese. All the men at work in the mine have been accounted for. Of the 17 wounded men, seven are now in hospital; seriously injured, but it is believed all have a fair chance for recovery.

Canadian Dollar at Par

On Equal Terms With U.S. Money for First Time Since August 15, 1915.

New York.—The Canadian dollar is once again at par in the New York money market. "Par" was the quotation announced by local banks for the first time in seven years. August 15, 1915, was the last date on which Canadian dollars were on even terms with those of the United States in this market. During the interval the discount rate soared to as high as 16 1/2 per cent.

The position of the Canadian dollar has been gradually improving during the past year, due largely to Canada's greatly improved trade position. For the past six weeks it has been gradually at par, the discount rate being nominal, ranging from 1-16 to 3-8 of one per cent. At many border points, however, the Canadian dollar has been accepted at 100 cents for some time past.

Japanese Cruiser Lost

Sunk in Typhoon With Entire Crew of 300.

Tokyo.—The Japanese cruiser Nitta went down in a typhoon off the Kamohaka coast, August 26, with virtually all hands, according to confirmatory advices received by the admiralty. The naval report said that practically none of her crew of 300 was saved. The destroyer Maki has been ordered to the scene of the disaster.

Attach Importance to Slav's Arrest.

London.—A native of Jugoslavia has been sentenced in Glasgow to prison for six months, under the act relating to aliens, and has been recommended for deportation. It is stated that he is a dangerous Communist. The British intelligence department attached considerable importance to his arrest.

Trade Agreement With Belgium Brussels.—Negotiations for an economic agreement between Belgium and Canada are expected to open here in the near future. Hon. W. S. Fielding will conduct the negotiations with Premier Thunys and Foreign Minister Jaspar.

Difficult Days Are Still Ahead In Ireland Before Coming Of Peace

Dublin.—Political writers forecast that Sean Collins may consent to stand for the seat of his dead brother in Cork County, and say that he is certain to receive practically unanimous support from the southern admirers of the late leader.

Her Two Children Had Diarrhoea Terribly Bad

Anyone suffering from bowel complaints such as diarrhoea, dysentery, colic, cholera, cholera morbus, cholera infantum, or any other looseness of the bowels, will find that Dr. Fowler's Extract of Wild Strawberry will give quicker and more permanent relief than any other remedy on the market today.

Mrs. Roy Keith, Charlton, Ont., writes: "I am writing to tell you what Dr. Fowler's Extract of Wild Strawberry did for me. Last summer my children had diarrhoea, terribly bad, and they would vomit and pass a great deal of blood. I tried every remedy we could think of, but finally bought a bottle of Dr. Fowler's Extract of Wild Strawberry, and about one-half of it stopped the diarrhoea altogether. I have told several others about it, and I would not be without it in the house, as I can truthfully say it saved the lives of my two children." Price, like a bottle; put up only by The T. Millers Co., Limited, Toronto, Ont.

General Richard Mulcahy now holds the combined posts of Minister of Defence, Chief of the General Staff and Commander-in-Chief of the National Army. Should he relinquish the office of Chief of Staff, it is expected that General O'Connell, Assistant Chief, will be promoted.

The Evening Press largely devoted itself to details of the guerrilla warfare which has been resumed in Cork County. At Blarney several engagements have occurred and many irregulars are reported killed or wounded. In Mayo successful operations have been carried out by the National forces, which have taken prisoners with arms and ammunition.

Discussing the general situation, the Evening Mail declares that it was never an easy task to predict the future in Ireland and at the present hour it is an impossibility.

"Dark and difficult days lie ahead," says the paper. "And so man can say what the next hour may bring forth. In its endeavor to fulfil the work begun by Arthur Griffith and Michael Collins, the Government will require all the sympathy and support the public can give."

COAL STRIKE HISTORY

The most notable strike of miners which has occurred in Nova Scotia was not the strike of the Drummond Collieries in 1879, nor the Ligon strike of '82, for the big strike of 1909, or thereabout, but the Springhill strike of 1879, and at that time there was no miners union in the land. But, and it is a big but, there were sensible leaders. Pumps were not ordered out; it was to be a clean and fair fight, and it was a bonny one. No loss was molested, not a cent's worth of damage done, the company's houses were vacated at the request of the sheriff, and this unprecedented action on the part of the miners was so looked for that it broke not the heart of the strike but the heart of the directors of the company, and the men of Springhill of seventy-nine had reason to be proud of their big and bloodless victory, a victory won without the least show of sympathy on the part of a single newspaper, or of the people of the province at large. This manner in which it was conducted, and the friends of former foes, won the approval of the press, was responsible for the organization of the P. W. A., the one union in the Dominion incorporated by statute, and the uplift of the miners, previously held to be an almost outlawed class. There was nothing red and revolutionary these days.—Mining Record.

LAYS AND RELAYS

A little jump in Mary's rent
Mau: Mary rather sore;
But everywhere that Mary went
The rent was the same.

A little rent in Mary's house
Was where it would not show;
The only place that could have been
Was in the heel, you know.

So Mary came to Cranbrook Town,
Where high rents we do see;
So possibly poor Mary's rent
Was somewhere near the knee.

And Mary came to one town
To economize in rent;
Alas! she found the rent had reached
The place where Mary bent!

GIRL FOUND HANGING

The fatal step may end the most happy life. The most cultured, beautiful and best loved are not exempt from the same fate.

A father's devotion, a mother's fond care and love of a brother or a sister's companionship will not shield them when they decide to take the step.

Such was the illustration last evening when one of the most refined girls was found hanging in the house parlor, surrounded by all the luxuries that go to make a happy life.

Late in the evening she was missed and a careful search failed to reveal her whereabouts. The telephone was used without results. Her friends were called to search for her, but no one was able to locate her. Finally the almost heartbroken mother returned to the parlor and there to her surprise she found her beloved girl hanging. How much the mother has been affected by the sight that met her gaze! There was that daughter hanging to her sweetheart's neck, begging him to subscribe to The Blairmore Enterprise in order that he might be better posted on events within the district.

COWLEY HAPPENINGS

Mrs. Ben Hood is holidaying with friends in Banff.

Ernest McEwen and family have removed to Blairmore.

Mr. and Mrs. C. Gibson, of Lethbridge, are Cowley visitors.

Paul Hargrove, of the Union Bank staff, has been transferred to Macleod.

Mrs. Goldie has returned to Lethbridge, after a few weeks visit here.

Mrs. Leigh and daughter visited the Bellevue flower show on Monday.

Miss Edna Fulton, of Blairmore, spent the holiday here at H. C. Morrison's.

The weather remains dry, which is favorable to harvest, seventy-five per cent. of cutting being done.

George Birkett and family, of Inverness, spent the week-end here. Mrs. Birkett is remaining for a few days.

Mrs. Christie has returned from Scotland to look after her interests in Cowley. Her future plans are indefinite.

A large crowd attended the tree-planting lecture on Saturday night. Many good hints were learned in regard to growing trees.

On the occasion of the visit of Peter Vergin, on Sunday last, the whole Doukhobor colony met; the train and celebrated the Passover.

Rev. D. K. Allan exchanged pulpits with Rev. Paul Moore on Sunday, Mr. Moore conducting service in the Coleman Institutional church, while Mr. Allan officiated here for the sacramental service.

WHERE BRIEFNESS COUNTS

An envious young cub reporter said to a special writer, the other day: "You certainly have one cinch, writing a couple of hundred words, and your day's work is done."

And the other said to him: "I wish it were a couple of thousand; it would be a cinch, indeed."

Almost anybody who can write his name can write an editorial if you give him 10,000 words to do it in. An unlimited amount of white paper can offer the public a paper that will be imposing.

But to "get over" a definite thought in 200 words is no an easy thing to do.

To give the news of the world and the country, the city and the neighborhood in a few columns is the test of a real news editor.

Circumlocution, circumvolution, the digressive stolid pyramiding of words upon words make for tardiness of the ego and ossification of the understanding.

The typical Canadian slogan is: "Make it snappy."

All that's the matter with parliament, with the pulpit, with the reactionary press and with the scholastic regime in our too detached universities, is a fondness for words and a hatred of ideas; an ability to hew to a mark, like a woodman, and get through the subject with the least possible number of strokes.

Every year, a wise author states, he reads more, observes more and writes less.

Any fool can conceal his ignorance in 5,000 words, but he's a genius who can conceal it in 250.

Condensation is the mother of invention, says an exchange.

If you have the "blues" read the 27th Psalm.

If your pocketbook is empty read the 37th Psalm.

If people seem unkind read the 15th chapter of John.

If you are discouraged about your work, read the 126th Psalm.

If you are all out of words, read the 17th Chapter of Hebrews.

If you can't have your way in everything, keep silent and read the 3rd chapter of James.

If you are losing confidence in men, read the 12th chapter of 1st Corinthians.

Face it on.

RELiance SCHOOL INK

1 The cheapest and most satisfactory way to buy ink for school use is in gallon jugs, or in kegs. Kegs are returnable at the price charged, while jugs may be refilled, ensuring against evaporation.

2 This means a saving to the board.

The Enterprise can supply Reliance Ink in kegs, jugs, or bottles, any quantity at the best prices.

Bringing Rural Residents Within Closer Reach Of The Urban Dweller

Human necessity and traffic requirements should be the guiding principle in the selection and location of any system of highways, rather than adherence to an artificial system of straight lines. Hon. S. J. Latta declared in his presidential address at the annual convention of the Canadian Good Roads Association held in Victoria recently. To this end, he stated, the following details should be considered:

The greatest good is the greatest number; most direct route possible for traffic; avoidance of sharp curves; advantage of easy grades; minimum construction cost; economy of maintenance; correlation of each road selected and located to other portions of the system; relation of the road as a feeder to railways; drainage facilities; proximity of road material; future requirements; necessity for bridges and culverts; money available for the project proposed.

The advantage of careful scientific planning could not be over-estimated. A well-planned road system would reduce cost of living by bringing rural residents within closer reach of the urban dweller, help attract settlement and elevate the social life of the community. "The type of road to build on any part of a settlement is that which will carry the load which will go over that road at least possible expense. Drainage was important and the greatest engineering skill should be employed in this work."

In location of a system, care must be taken to select mileage capable of being finished by taxpayers concerned, and the same principle applied in the choice of type.

Road building is a great co-operative enterprise. Taxpayers of any given community should co-operate with each other in the interest of all. Distribution of funds depended on ability to contribute, and funds derived from the utility provided. Provincial aid to the communities ought to be given on the same basis. It was quite evident, he said, that a basis of population could not fill all requirements for the purpose of operation. In like manner it might easily be shown that distribution of federal aid among provinces on a population basis might be in many respects unjust and inequitable. The human element is Canada's greatest asset and its interest must, therefore, be kept at all times in the forefront in any development scheme.

Emphasizing the magnitude of the road-building problem, the president intimated the relatively small population spread over an immense area. Upon a family of four persons—less than the average—rests the enormous responsibility of building and maintaining one mile of highway, upon five average families, the construction and maintenance of a mile of main market highway. Before roads are built or extended, land areas must be examined, and for those found fit to serve the human element, an officially planned road system ought to be devised so that railways, roads and the economic value of land might be made to fit in with each other.

When Time Was Precious

Bell applied for a patent on his telephone, February 14, 1876. The same day, Prof. Eliza Gray rushed into the patent office with almost identically the same device.

After years of litigation the national Supreme Court decided in favor of Bell.

Bell got to the patent office a few hours ahead of Gray. The short delay cost Gray what patent attorneys call "the most valuable single patent ever granted."

Being punctual pays. Doleful usually means failure. As Napoleon put it, "Every hour of inactivity increases the chance for disaster."—Buffalo Times.

Wild Fruit Crop

Manitoba has a good wild fruit crop in prospect according to Prof. W. Brodick, of the Horticultural Department of the Manitoba Agricultural College. Wild raspberries, plums, Saskatoons, cherries, currants, strawberries and other native fruits have blossomed abundantly.

Special wireless sets are being made in America for the use of cowboys while riding on their rounds.

There are no living descendants of Shakespeare, Cooper, Dryden, Swift, Caesar, Pope, Shelley or Byron.

England has a surplus of 2,000,000 women.

W. N. U. 1425

Control Grasshopper Menace

Insect Pest Scarcely in Districts Where Birds Are Plentiful

"It is almost a certainty that in the southern part of Saskatchewan where the hoppers have been most prevalent during the last three years, conditions will not be nearly so bad this year," states M. P. Tullis, Commissioner of Field Crops, Provincial Department of Agriculture. "Field representatives in that territory who have been making surveys report egg deposits scarce and there is a feeling of optimism among municipal councils and farmers generally. It is hoped that the control measures employed there in the past, and the work of parastates has reduced the numbers of the pest so that the danger period is practically over."

The first grasshopper mixing station to open in the province was in the neighborhood of Saskatoon, Tumtum, Hamilton and Bradwell, which opened up on May 29, and Delsie, Broderick, Fessler, Conquest, Webb, Assiniboia, Vanguard and Neyville, and a few other points opened a few days later.

"The present situation in regard to outbreaks of grasshoppers is quite different to what it was at this time last year. Just a year ago, by far the larger quantity of supplies being used east of the third meridian and ninety per cent. south of the Qu'Appelle Valley. This year nearly all of the materials shipped out from the warehouse have gone west of the third meridian, and about equally divided between north of the Qu'Appelle and South Saskatchewan Valleys and south of this line. "There are practically no hoppers north of township forty. The pest and bush areas have been almost wholly free from hoppers each year since the pest appeared in Saskatchewan. This is in all probability due to the presence of much larger numbers of birds that live on insects."

Cheese in the Diet

Builds up the Tissues and Provides Energy for Body to do its Work

It is a remarkable fact that although Canadian cheese is equal to the finest of its class in the world, cheese is not at all generally available in Canada as in many other countries. In England, for example, a large percentage of the homes use cheese almost daily. To some people cheese is not a delicacy, but a necessity, as pointed out in Pamphlet No. 7 of the Department of Agriculture at Ottawa, its digestibility is improved when combined with other foods. When eaten with bread or other starchy food, such as potatoes, or macaroni, it forms one of the most satisfactory food combinations, and one which will not be difficult of digestion for most people. It is when eaten as the end of a heavy meal that it is liable to create indigestive organs. Cheese is a very concentrated diet, nearly all of it being used by the body to build up new tissues and to provide energy for the body to do its work. For sturdy men, it is a splendid food. In fact, it is one of the best muscle builders and one which is entitled to a large place in the diet.

While cheese may be served with any further preparation, it can be made and added in many different ways. It should be borne in mind, however, that cheese will be harder to digest if cooked at a high temperature. The pamphlet to which reference is made contains many cheese recipes. These include: Cheese soup, Welsh rarebit, pudding, soufflé, croquettes, omelette, biscuits, salad and many other enticing dishes. The recipe for cheese biscuits taken from this pamphlet is: Two cups flour; 4 teaspoons baking powder; 2 tablespoons lard or butter; 1/4 teaspoon salt. Sift the flour, baking powder and salt together, and rub in the butter evenly. Add the remainder, knead and enough milk to make a soft dough. Roll out in shape, and bake in a hot oven. The dough should be handled as quickly as possible and mixed only enough to blend the ingredients.

Locusts Destroying Fields of Spain

Great Swarms Cover Railway Line and Stop Train

A large part of Spain, especially Aragon, La Mancha and Aragon, has been invaded by a plague of locusts like those described in Biblical stories. Great hordes descend on the fields and devour the grass and leaves, transforming the smiling country into a desert within a few hours.

The Government has organized a defense campaign, using paraffin, on which the import duty has been reduced 50 per cent.

Near Lacarolla, in the province of Jaen, a train was stopped by the locusts' swarms and covered with a thick rain, and on the masses of crushed insects, the wheels of the locomotive merely revolved aimlessly.

Rural Schools Crowded

Raising School Age in Saskatchewan Causes Complications

As the result of the new regulations passed at the last session of the Legislature raising the compulsory school age in Saskatchewan to 15 years, many of the school houses in rural districts of the province are crowded to capacity, and a few of them have not sufficient accommodation for all the pupils affected by the new act, according to information which has reached the Department of Education.

"The department has become acquainted recently with a number of cases where instant accommodation will be found in the schools for the children who are to attend," A. H. Hall, Deputy Minister, is quoted as stating. "This is true of a number of rural schools, especially."

Mr. Hall stated that the only way out of the difficulty will be for some of the schools to increase the size of classrooms to provide for the jump in attendance.

"In raising the age limit for compulsory education, regard must always be had to this contingency. It was found when the time came to proclaim the adolescent act of Ontario in force there were not school buildings in the province to accommodate a large number of pupils who became liable to attend school under the act, and exactly the same difficulty was found when the Fisher Act in England, came to be put in operation. So Saskatchewan is not alone in her difficulty."

It was intimated that in cases where there is not sufficient school accommodation available rigid enforcement of the act will not be insisted upon at first, as the older pupils are concerned, until space can be provided for the classes.

Girding the Globe

Whispering Voices that Seem to Annihilate Space

Miracles never and never is today completing near Paris a radio station which will communicate with Saigon in Indo-China, a distance of 5,500 miles, while Holland will have a station which will talk with Java, over a distance of 11,000 miles. It means that countries, whether great or small, can actually make themselves heard throughout the world. It is not only in cathedrals like St. Paul's in London that you find a "whispering gallery." Land and sea, mountain and valley, prairie, jungle and ice-bergs are also one vast whispering gallery, and the air we breathe is full of voices.

Take a map and see what happens to the word on its flight from Holland to Java. It spreads over Germany. It laughs at the network of Balkan frontiers. It leaps, drenched, across the Black Sea. It trips lightly over Bohemia in Russia. At present in India it scarcely glances, and thus it reaches its goal. Unwearied and unending, it is a perfect symbol of the spirit of friendship which is expressed in international trade, international travel, international art, international science, international religion. Radio is the one touch of science that makes the whole world kin. It adds to man's genius a spark from the genius of God. "Slowly but surely science is healing the wounds of war, and in two ways. First, by making war too terrible to endure, and, secondly, by making the links of peace too strong to be broken. When it is possible, as soon as it will be for a special delivery in America to be heard in China, the east will better understand the west, and statesmen will realize that whatever they say to their own countrymen is overheard by all mankind. Peaceful persuasion will then be possible and the Parliament of man, foretold by Tennyson, will be a reality.—New York Mail.

Income Tax Returns

During the last fiscal year the Dominion Government received from income tax returns approximately \$50,000,000, which is a considerable increase over the preceding year, when the returns only amounted to \$50,000,000. The business profits tax, back collection on which were made, brought in an additional \$23,000,000.

Drainage Schemes in Saskatchewan Thousands of acres will be reclaimed in Saskatchewan this season when the several drainage schemes under the Department of Highways are carried out. The work which is being undertaken in various parts of the province will cost the Provincial Government about \$50,000.

Million Dollars for Roads

Over a million dollars worth of contracts for road and street making have been let in Ontario this year, according to official statistics. Quebec has let a contract for a total of \$1,600,000. Similar work anticipated to be done during the year in the two provinces amounts to \$2,900,000.

U. S. Scientists Claim To Have Perfected Process For Liquefying Helium

A Little Talk on Thrift

By the President of the American Society for Thrift

This is the time of the year when thousands of our young people are leaving schools and colleges to take up the practical responsibilities of life. They are looking forward with high ambition and a firm determination to make the most of the great years that lie ahead of them.

Whatever life may hold for the individual during the next fifty years, it may be regarded as a matter of certainty that during this era will be more interesting than ever before. With the rapid progress now being made in many branches of science, one cannot, by the wildest stretch of imagination, picture what wonders will be seen and experienced by those who are alive fifty years hence.

But the fundamentals of human progress are as changeless as the stars, and those who go the furthest in life's accomplishments will do so because of their adherence to those elements of success which have been the practice of broad constructive thrift.

This does not mean alone economy, but that it means in a word, the elimination of all forms of waste. One of the penalties of inexperience in practical matters is one's failure to appreciate the value of little things, and thrift is essentially a conservation of the so-called unimportant things.

Those who are thrifty are systematic, efficient and progressive. They know how to stop up the little leaks. The elimination of idle moments means more work done, just as the saving of a few dollars here and there means a substantial accumulation.

Be willing to sacrifice small pleasures for the good of your career. Work systematically toward the one big purpose you have in mind. Do not try to arrive at the goal of your ambition too soon. Learn the value of patience.

There are no lessons which life can teach that are of more practical value than these, and we hope that among the young men and young women who are going out into the world of experience at this time may be imbued with the spirit of true thrift for their own good, and may never hope to reach that high place in life which is their heart's dream today.

Above Petty Meanness

British Always Show Kindness Even to Their Enemies

It is sometimes said that British were constantly obeying the divine command: "Love your enemies." She answers slanders with a smile and refuses to take the onslaughts of venomous critics seriously. Only the other day we read a warm appreciation of the Freeman of New York, a relentless backslider of Britain, from the pen of the great London editor, Sir W. Robertson Nicoll. Sir Robertson said he had been reading the Freeman and was so struck by the man's attitude in every issue, and had found some splendid literary comments in its pages. He overlooked the trashy insults to his country, and, turning to something else, found an article or two that intrigued his intellect and touched his heart. For the sake of these, he recommended the Freeman to his friends. This is the sort of Briton that Mr. Meant will meet in the world's metropolises. When he returns, let us hope, he will find more than ever that throwing mud at such a friendly person is not only bad manners and poor policy, but sheer waste of time and effort.—Chicago British-American.

May Move Paris Observatory

The vibrations of gay Paris are putting the world's greatest timekeepers out of commission. Thus the Paris Observatory, which daily sends the time throughout the world by wireless, is and is now, owing to vibrations, incapable of calculating time more closely than .004 or .005 of a second. This is not exact enough, and M. Balland, Director of the Observatory, presented to the Academy of Sciences a report on conditions, and suggested that the observatory be removed from Paris.

Successful Tree Planting

Giving a brief history of tree planting in the prairies and the successful results achieved by the free distribution of a bulletin issued by the Forestry Branch states that at least 70 per cent. of all tree seedlings in Western Canada have been successful.

A typesetting machine invented in 1872 contained 18 thousand parts.

The coldest spot in the world has been found. By comparison, the North Pole is warmer than the tropics. It is so much colder than any other spot in the universe that comparisons are almost impossible. To be exact, it is 515 degrees Fahrenheit below zero. For instance, the known temperature near the North Pole varies from 30 to 60 degrees below zero. At the highest altitude ever reached in an airplane, the temperature hovered around 60 degrees below zero. This was nearly seven miles up.

This remarkable spot is in Washington. It is the cryogenic laboratory of the Bureau of Mines, Department of Interior, where, for more than two years, scientists have been working in an effort to liquefy helium gas. They have succeeded in making it so cold that it is 100 per cent. efficient in the lift of giant dirigibles.

And after numerous failures success finally is in sight. So sure are the scientists of this that they expect to be able to announce before the end of the year that what has been assumed to be impossible has been accomplished and that helium gas has been liquefied and absolutely isolated from traces of any foreign gases.

When the process is perfected, it will be of inestimable value to science, particularly to the navigation of the air by the huge ships which will cross the Atlantic and Pacific oceans. It will make accidents such as that which recently happened the airplane Rome, impossible, for the gas is non-inflammable and only lacks lifting power to the extent that it has been impossible to free it of other gases.

The research work is also calculated to reduce the cost of producing helium, which to date has been so expensive and prohibitive that airships have been only partially inflated with it.

Walking and Riding

Probably No Form of Exercise Will Take the Place of Walking

The doctors who are complaining of the decline of walking are thinking of the decline of the effort upon health. Considered as a form of exercise, the promotion of health there is probably nothing to take the place of walking. The automobile has its uses, too, as health-giving agency. It does afford an opportunity for "making the air," but unfortunately the air to which it brings its devotees is usually so charged with the dust of the roads that it is of questionable value from the point of view of health. But the art or science of walking has many claims to consideration from the point of view of pleasure. It yields a kind of pleasure to be found in no other way. The blue sky, the green fields and the open road—it is a vision to stir the blood. For the lover of out-of-doors, for those who take delight in the simple and beautiful things which nature provides so lavishly for all, who are capable of enjoying them, there is no form of motion to take the place of walking. From the Woodcock Sentinel-Review.

Good Work of G.W.V.A.

Veteran Receives Money Due Him as Result of Efforts of this

S. G. Armstrong, of Lockwood, Sask. has received a cheque for \$40 as a result of representations made on his behalf by the Saskatchewan Command of the Great War Veterans' Association.

He deposited money to the credit of the S.S.P. in an English bank as he intended to take up land on his return to Canada from overseas. In July, 1931, the money was transferred to this country at his request and deposited at Lockwood. In the process of transference he suffered a loss owing to the depreciation in the rate of exchange between the time he asked for the transfer and when it was actually effected. In August, 1931, he brought the matter to the attention of the G.W.V.A. and after nearly nine months' of correspondence, his claim has now been satisfactorily settled.

Alberta Potatoes Free from Disease

There will be a very large demand for Alberta grown seed potatoes for the Central and Southern States in the near future, according to C. O. Fitch, editor of the Potato magazine published at Ames, Iowa. His point is that the Alberta product of seed potato is particularly free from disease.

Coal grates should be shaken in the morning and not at night.

The nickname Uncle Sam was first used at Troy, New York, in 1812.

OPENING OF AGRICULTURAL SCHOOLS

Classes in the agricultural schools of the province will open for the 1922-23 term on October 31. The classes will be conducted this year at four schools, these being at Raymond, Clareholm, Oids and Vermilion.

Arrangements have been made by the department of agriculture so that prospective students from the Glenelg and Youngstown districts will be transported free of charge to the schools at Clareholm and Oids.

A particularly good attendance is looked for at the four schools this year. The courses in agriculture and home economics provided for the older boys and girls of the farm at these schools have become far-famed and it is expected that more students will be able to take advantage of them this year. As is known, the courses are free, the only cost to the student being that of room and board. Dormitory accommodation is provided for girls at Oids and Clareholm but room and board can be had reasonably at all four towns in respectable homes.

At three of these schools, Oids, Clareholm and Raymond, special courses in irrigation will be given. The instructor is E. E. Eisenhauer. The staffs of the schools for the coming term are now about completed, and will be announced shortly.

HIS MOUTH HID HIS FACE

A certain fellow Chicago avian has an amazingly large mouth which he contorted into an evil, prevailing smile when he wished to make a good impression. His sweetie had persuaded him to "ask father," and the youth was determined to show himself to good advantage.

"Mister Jones," he began, stretching his principal feature to the utmost geniality. "I have come to ask for the hand of your daughter, I—"

"Just a moment, young man," interrupted the old gentleman rudely "would you mind closing your mouth for a moment till I see who you are?"

—American Legion Weekly

A FINANCIER

"We got five thousand dollars out of that railroad wreck we were in."

"But you told me you weren't hurt."

"I wasn't, but I had the presence of mind to kick my wife in the face."

WHY STARS TWINKLE

If you look up at the heavens on a clear, starry night you will notice that some of the myriad bright points twinkle, whilst others shine with a perfectly steady light.

Those which shine with unwavering brilliance are the planets, worlds like our own earth, which revolve, as it does, around the sun. But the twinklers are stars. They are themselves distant suns, many of them bigger than our own.

Our star, for instance, is 800,000 miles in diameter, but Betelgeuse, a star in the great constellation of Orion, is no less than 200,000,000 miles across.

Now, why should planets shine steadily and stars twinkle. Some people are satisfied with the answer that twinkling is caused by the mistiness of our atmosphere. But that is no explanation at all for planets must send their rays through just the same amount of atmosphere as stars.

The real reason is twofold. In the first place, the stars are thousands and thousands of times more distant than the planets, so that their rays have to pass over far greater distances of space to reach us. Now, though there is no air in space, there are countless millions of tiny bodies constantly travelling through it. Some are no bigger than pebbles, others are of great size. It is these bodies passing through the rays of a star that are the main cause of the twinkling.

The other reason is that whilst the planets have no light of their own but merely reflect the sun's brilliance, the stars are always sending out their own light, which is more brilliant at some times than at others.

—Tit-Bits

Blessings on thee, little dame—
Baraback girl with knees the same
With thy rolled down silken hose
And thy short, transparent clothes:
With thy red lips, reddened more
Smeared with lipstick from the store;
With thy makeup on thy face,
And thy bobbed hair's jaunty grace,
From my heart I give thee joy—
Glad that I was born a boy.

—Chicago Tribune

NEW COURSES OF STUDIES

The new course of study for the public schools of the province has now been printed, and has been distributed by the education department to all schools in the province. In cities where a superintendent is engaged, the course of study has been sent to his office. In other cases, the books have been sent to the secretaries of the school districts. This plan of distribution has been adopted because there is as yet no complete list of teachers in their present locations available to the department. Teachers who have not yet received the course of studies should get into touch with their school boards as soon as possible.

The new course is authorized for use in all the schools of the province during the present year, and each teacher should secure a copy at once. The course is the most detailed and complete of any province in Canada. It has been published in a most attractive form, and the course itself is most attractive. In the preparation of the course, while considerable detail has been included, a nice balance has been retained between a necessary outline, and look great attention to method. The course is somewhat longer than the one it replaces, but it should prove much more suggestive and helpful to the teacher. A close study of the course and close adherence to its suggestions, should result in more effective work particularly in such subjects as English, nature study and industrial arts.

Boost! and the world boasts with you. Knock! and you're on the shelf. For the world gets sick of the eternal kick, it wishes he'd kick himself. Boost when the sun is shining; boost when it starts to rain; if you happen to fall don't whimper and bawl—get up and boost again. Boost for general advancement; boost for the things sublime; for the fellow found on the topmost rung is a booster every time.

PROBABLY WAS

Sunday School Teacher: "Can you tell me, Mary, why Lot's wife was turned into salt?"

Mary: "No, ma'am—'less she was too fresh."

Another PRICE Suggestion
Doughnuts and Crullers

DOUGHNUTS! There is nothing more wholesome and delightful than doughnuts or crullers rightly made. Their rich, golden color and appetizing aroma will create an appetite quicker than anything else in the world.

Here are the famous Dr. Price doughnut and cruller recipes:

(All measurements for all materials are level.)

DOUGHNUTS

1 tablespoon shortening
1 cup sugar
1 egg
1 cup milk
1 teaspoon salt
1/2 teaspoon nutmeg
1/2 teaspoon cinnamon
1/2 cup flour
1/2 cup Dr. Price's Baking Powder

Cream shortening; add sugar and well-beaten egg; stir in milk; add nutmeg, salt, flour and baking powder which have been sifted together and enough additional flour to make dough stiff enough to roll. Roll out on floured board to about 1/4 inch thick; cut out. Fry in deep fat hot enough to brown a piece of bread in 60 seconds. Drain on unglazed paper and sprinkle with powdered sugar.

DR. PRICE'S
CREAM
Baking Powder

Made from Cream of Tartar, derived from grapes. Works evenly and thoroughly, adding to the healthfulness and wholesomeness of the food.

MADE IN CANADA

Send for FREE Cook Book—"Table & Kitchen"—149 Notre Dame East, Winnipeg, Can.

AFTERNOON TEA

DOUGHNUTS

1/2 cup sugar
1/2 cup milk
1/2 cup flour
1/2 cup Dr. Price's Baking Powder

Beat eggs until very light; add sugar, salt, nutmeg and melted shortening; add milk and flour and baking powder which have been sifted together; mix well. Drop by teaspoon into deep hot fat and fry until brown. Drain well on unglazed paper and sprinkle lightly with powdered sugar.

CRULLERS

1/2 cup sugar
1/2 cup milk
1/2 cup flour
1/2 cup Dr. Price's Baking Powder

Cream shortening; add sugar gradually and beaten eggs; sift together flour, cinnamon, salt and baking powder; add one-half and mix well; add milk and remainder of dry ingredients to make soft dough. Roll out on floured board to about 1/4 inch thick and cut into strips about 1/4 inches long and 1/8 inch wide; roll in hands and twist each strip and bring ends together. Fry in deep hot fat. Drain and roll in powdered sugar.

ENCROACHING SHADE TREES

Answering a question as to whether there is any court decision in regard to the right of a land owner to prune shade trees encroaching upon his property from that adjoining and spoiling his lawn by their dense shade, a bulletin of the Canadian Forestry Association states that a decision was recently given by a British judge denying the right of any one to prune or trim the branches of trees reaching from a neighboring estate over his building, and causing, so it was alleged, unhealthy conditions. The Association does not know of any similar decision being made in Canada.

To Holders of Five Year
5½ per cent Canada's
Victory Bonds

Issued in 1917 and Maturing 1st December, 1922.

CONVERSION PROPOSALS

THE MINISTER OF FINANCE offers to holders of these bonds who desire to continue their investment in Dominion of Canada securities the privilege of exchanging the maturing bonds for new bonds bearing 5½ per cent interest, payable half yearly, of either of the following classes:—

- Five year bonds, dated 1st November, 1922, to mature 1st November, 1927.
- Ten year bonds, dated 1st November, 1922, to mature 1st November, 1932.

While the maturing bonds will carry interest to 1st December, 1922, the new bonds will commence to earn interest from 1st November, 1922, GIVING A BONUS OF A FULL MONTH'S INTEREST TO THOSE AVAILING THEMSELVES OF THE CONVERSION PRIVILEGE.

This offer is made to holders of the maturing bonds and is not open to other investors. The bonds to be issued under this proposal will be substantially of the same character as those which are maturing, except that the exemption from taxation does not apply to the new issue.

Dated at Ottawa, 8th August, 1922.

Holders of the maturing bonds who wish to avail themselves of this conversion privilege should take their bonds AS EARLY AS POSSIBLE, BUT NOT LATER THAN SEPTEMBER 30th, to a Branch of any Chartered Bank in Canada and receive in exchange an official receipt for the bonds surrendered, containing an undertaking to deliver the corresponding bonds of the new issue.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmaturing coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

W. S. FIELDING,
Minister of Finance.

15 years experience in handling
chronic and acute diseases. Write or
phone for information regarding your
case. Rheumatism, heart, stomach
and liver troubles and nervous dis-
orders my specialty.

Lady in attendance.

Blairmore Lodge, No. 44, meets
every Tuesday night at 8 p.m. in the
Oddfellows hall. Officers for the
coming term: W. T. Patterson, N. G.;
Wm. Oliver, V. G.; D. A. Howe, R.S.;
J. B. Harmer, P.S.; J. Montalbetti,
Treas.

Crow's Nest Encampment No. 4,
meets on the second and fourth Wed-
nesdays of the month at 8 p.m. Officers
for the coming term: W. T. Patterson, N. G.;
Wm. Oliver, V. G.; D. A. Howe, R.S.;
J. B. Harmer, P.S.; J. Montalbetti,
Treas.

Crow's Nest Encampment No. 4,
meets on the first and third Thursdays
of the month at 8 p.m. Officers: Sister
Fraser, N.G.; Sister Archer, V.G.;
Sister McPherson, R.S.; Sister Walker,
P.S.; Sister McKinley, Treas.

Bellevue Lodge No. 118, meets
every Monday night at 8 p.m. Officers:
H. Jensen, N.G.; H. Harrison, V.G.;
J. Shovel, R.S.; J. Wyatt, Treas.

Armistice Encampment No. 11,
Blairmore, meets the first and third
Wednesdays of the month. Officers:
A. R. Carr, C.P.; Stephen Berry, R.S.;
Harry Jensen, V.G.; Fred Walker,
P.S.; Sister E. Oliver, R.S.; Sister
Charles W. Ray, Scribe; Box 6

Ray of Hope Rebekah Lodge No. 47,
meets the first and third Wednesdays
of the month. Officers: Sister M.
Bentley, N.G.; Sister M. M. Harvey,
V.G.; Sister E. Oliver, R.S.; Sister
M. A. Goodwin, Treas.

Visitors of the Order are cordially
invited to attend the above lodges.

Items of Local and General Interest

The plumed epistle at Blairmore
has been settled and all notices in
the district are now working full
blast.

To take care of the coal truck in
the Pass, the "pusher" and switch
engine have been retained to
Frank.

Mr. and Mrs. J. H. Bond left
on Tuesday's local for Calgary,
where Mr. Bond has accepted a
position as teacher.

Count Rinaldi says that the
plan to abolish money was pro-
posed by some of the
communists who discovered that it
was a failure in her country.

WANTED—Capable House-
keeper for Calgary home. No
small children. Small family.
Apply to Mr. Galloway, gent's
improving store, Robinson.

A local doctor extracted a
rather large tooth from the ear
of a lady in the morning
morning last. The creature was
very ill looking for winter lodg-
ings.

Notices have been posted
stating that the C. P. R. Trans-
Canada train will be withdrawn
on Sunday next, the last train
for the season leaving Montreal,
Toronto and Vancouver on Mon-
day.

Two teachers from London,
England, have taken their place
on the staff of the Lethbridge
schools, in place of two Leth-
bridge teachers who have gone to
England to do the teacher ex-
change plan.

Rev. H. Clay, formerly in
charge of the Anglican mission
here, but now located at Orléans,
was a visitor for a day here last
week. He was accompanied by
his brother, also a missionary in
the Orléans neighborhood.

We wonder how the proprietor
of a local store ever expects
to enter his premises if he pro-
vides no means of drawing at-
tention of the desired (?) in-
tenders to the holes in the netting
of his screen door.

The board of Railway Com-
missioners will sit at Lethbridge
on September the 27th. Among
the matters to be considered will
be the appeal of the C. P. R. for
the removal of the Cardston to
Crow's Nest local day trains.

In accordance with the Wash-
ington, naval agreement, the
British admiralty has ordered the
scrapping of the battle cruiser
Lion and Princess Royal and
battleship Orion, Albatross, Con-
queror and Erin, all of which
are the most famous warships in
the British navy.

The annual school fair will be
held at Cowley tomorrow. Six-
teen school districts will be in
competition and the fair promises
to be particularly good. The
education committee will be of
special interest. A dance will
be held in the evening in the
Fusion hall.

Miss Helen R. Gervais, A. T. C.,
and Mr. J. G. Harper, musical
director of the Lethbridge
University of Music, will arrive
at Blairmore Friday morning.
Miss Gervais will have charge of
the Blairmore and Coleman
branches of the Conservatory.
Miss Gervais is a most talent-
ed musician and as well as
being a most excellent performer
is considerably experienced in
musical teaching, and will
no doubt will be a great acqui-
sition to the musical forces of
Blairmore and Coleman—ad.

Two boys of about fourteen
years of age, who through idleness
started a fire that did some dam-
age, were sentenced by a British
council judge to four years in a
reformatory.

When striking a match in the
street, use your head.

The return of the prodigal long-
hair sure kills the fatted calf.

Kamloops is helping John D.
by using oil on its streets as a
permanent dust layer.

A re-organization and practice
of the choir of the Union church
will be held tomorrow (Friday)
night.

A meeting of the shareholders
of the Blairmore Opera House Co.
will be held at the office of W.
A. Beale on Monday, October the
second.

NOTICE To Contractors

Bridge Construction

TENDERS will be received by
the Deputy Minister of Public
Works at 10 o'clock A. M. on
the 14th day of September, and
at that time publicly opened, for
the construction of a steel and
reinforced concrete arch bridge,
being part of Victoria Street, in
the Town of Blairmore, Alberta.

Plans and specifications are on
file in the office of the Resident
Engineer, H. P. Keith, Box 514,
Lethbridge, and with the Sec-
retary-Treasurer of the Town of
Blairmore, at his office in the
Blairmore Town Hall. Any ad-
ditional information can be ac-
quired from the Deputy Minister of
Public Works.

Tender forms properly filled in
must be accompanied with cash or
certified cheques to amount of
\$25.00, which will be refunded
when contract is awarded and up-
on return of plans and specifica-
tions, with a bona fide tender.
The right to reject any or all
bids is reserved.

(Signed) J. D. ROBERTSON,
Deputy Minister of
Public Works.

DATED at Edmonton this 30th
day of August, 1932.

TO TEACH AT COLEMAN

On Friday evening of last week a
surprise party was held at the home
of Mrs. George Pateman in honor of
Miss Notman and her mother, and
Mrs. J. McNeil. A presentation of
silverware was made to Miss and
Mrs. Notman, and a carving set to
Mrs. McNeil, by the young ladies.

Miss Notman and her mother left
on Tuesday evening for Coleman,
Alta., where Miss Notman has ac-
cepted a position on the teaching
staff. No doubt Miss Notman will
be greatly missed in this district where
she has been teaching during the past
four years and during that time has
taken a very active interest in the
social work of the community. Mrs.
McNeil will, in a day or two, accom-
pany her husband to Franklin where
the latter has accepted the principal-
ship of the school.

On Saturday a reception was held
in the school at McNeily at which
J. McNeil was presented with a gold
leather club bag by the citizens of
the town. The chair was occupied
by Rev. W. M. Chalmers, who in a
short speech outlined the purpose of
the meeting. Dr. Goodwin, after
making the presentation to Mr. Mc-
Neil, made a congratulatory speech
after which a presentation of a
French ivory set was made to Miss
Notman by the pupils of her room.
Mrs. Albert McNeily made the pre-
sentation.

At a meeting of the Women's In-
stitute held at the rest room on Wednes-
day of last week, Mrs. McNeil was
presented with a couple of pieces of
fine hand-painted china. Mrs. Mc-
Neil has been secretary of the insti-
tute for the past two years and the
society will feel her loss very much.
—McNeily Notes in Winnipeg Free
Press.

Inspector I. Jurek has moved
his family from Fernie to Leth-
bridge, where they will in future
reside.

A wife is like a shell empty.
It is hard to make her believe
that her husband is not when he
is out.

Mrs. McDonald, of Corbin, and
her daughter, Mrs. Quinn, are
visiting with Mr. and Mrs. James
Patterson.

Despite the agricultural slump,
the value of the swine of the
United States is estimated at
\$875,000,000.

Alphonse Fabre, accountant
with Contractor Luzzi, paid a
business visit to Calgary the early
part of the week.

Annulus was the best liar of
his day. It was centuries after
before the disciples of Isaac Wal-
ton were born.

Just because you were married
by a minister is no reason why
you should have it in for the
church of which he is pastor.

Mrs. Brown, of Pincher Creek,
spent a few days here during the
week with her daughter, Miss
Hazel Brown, music instructor.

Miss Irene Dillingham, who
has been spending a few weeks
with Miss Louise Gresham, re-
turns to Innisfail tomorrow night.

Miss Davis returned Tuesday
morning from her vacation, spent
mostly in the States, and has re-
sumed her position at the local
school.

A denunciation from the local
board of trade will confer with
representatives of the town coun-
cil of Coleman tonight on matters
of vital interest to the Pass.

The name of The Blairmore
Wholesale Co., who donated three
hundred cigars, was omitted from
the list of contributors to the
miners' picnic of August the 25th.

We believe that Valentine
Rinaldi must be a Free Mason.
We noticed him trudging down
the street the other day with a
crowd in one hand and a jail-
door key in the other.

R. W. Morgan, of the Pincher
Creek Motors, is in Spokane, where
the death of his mother occurred
on Tuesday morning. Interment
takes place at Spokane this after-
noon.

Dr. H. R. Hoar, pro golfer,
has returned from a successful
tour of the Cranbrook golf course.
The doctor will be at home for
the balance of the season to one
desiring lessons in golf.

W. J. Budd, representing the
Mount Royal Manufacturing Co.
of Calgary, is at the F. M. Thomp-
son Co's store today with a full
line of ladies' coats, dresses, skirts,
etc.

The owner of the average auto
in Nova Scotia pays an annual
license fee of sixty dollars, as
compared with the thirty dollars
in Alberta and twenty dollars in
Ontario, according to data com-
piled by the department of rail-
ways and canals.

Ensign Thomas Mundy, of the
Salvation Army, was married in
Winnipeg on August the 28th to
Captain Barbara Currie. Ensign
Mundy will be remembered by
people in this district, he having
at one time been connected with
the Coleman barracks.

Mr. Norton F. Brand, American
Consular Agent at Fernie, pre-
sented starting out about October
the 1st on a two months' lec-
ture of the northern States and
possibly parts of Canada. His
subject will be the "The Mexican
Southland." Mr. Brand has
travelled considerably through
Mexico and it is said his lecture is
interesting.

Peace River Farming

Vegetables, Cereals, Small Fruits, Wild Flowers, Field Roots and Some Food Plants Yield Well

Canada has a valuable agricultural region in the Peace River district. Bulletin No. 9 of the Federal Department of Agriculture deals with experiments at the sub-station of the Dominion Experimental Farms located at Fort Vermilion, Alberta. The settlement at this place lies on the banks of the Peace River, 350 miles north of Edmonton, in fifty-eight degrees twenty-four north latitude, 116 degrees west longitude, and 900 feet above sea level.

Fort Vermilion has had the usual romantic career of settlements depicted in Sir William Butler's "Great Lone Land." First the trapper and fur trader, then the Indian mission, and next the pioneer and agricultural development. The Hudson's Bay Company had done some tilling prior to the establishment of the mission, which did not come about until 1898. Twenty-eight years later, in 1926, the first Director of the Dominion Experimental Farms, Dr. J. H. Saunders, entered the settlement with Robert Johnson, who set out to carry on investigations with cereals, fruits and vegetables.

Five acres of land were first rented and then added to until now twenty-five acres are occupied and conducted by Mr. Jones, from whose annual reports the bulletin here referred to has been compiled. From these reports it would appear that potatoes, sugar corn, celery, cabbage, cauliflower, carrots, celeriac, lettuce, parsley, onions, parsnips, spinach, turnips and rhubarb can be termed certain crops, and crops that mature fairly early. The season is short but vigorous. Peas have done well every year since 1909 except in 1910, when an exceptionally heavy frost proved destructive. Beans do well in ordinary years, but corn, pumpkins, tomatoes and cucumbers may be regarded as uncertain, although fodder corn can generally be relied upon. Cucumbers have to be hot bedded first. Of fruits, strawberries, currants and raspberries have done well, but gooseberries, plums and apples have not thriven to any considerable extent. The harder flowers flourish, and the garden at Fort Vermilion has attracted much attention.

Five varieties of peas tested in six-year averages have yielded as follows per acre: Bishop, 58 bush, 40 lbs.; Huron, 56 bush, 30 lbs.; Red Pile, 55 bush, 25 lbs.; Marquis, 52 bush, 35 lbs.; and Prelude, 41 bush 58 lbs. Oats in the same average have yielded: Banner, 88 bush, 33 lbs.; Dan, 82 bush, 31 lbs.; and Eighty Day, 62 bush, 2 lbs. Barley similarly tested has produced: Manchurian, 60 bush, 40 lbs.; Dominion, 58 bush, 15 lbs.; Success, 55 bush, 30 lbs.; and Hullless Hulled, 51 bush, 42 lbs. Various sorts of field roots have been experimented with successfully. Sunflowers for ensilage have proved promising, and surprisingly large crops of green fodder have been obtained from corn. Of clovers and grasses, Grum and Ontario Variegated varieties of alfalfa, and red clover, have proved promising; Alsike clover has not been sufficiently tested. Timothy, Western Ryegrass, Awlees Brome and Meadow Fescue, tested for hay value, have wintered well, but Orchard and Red Top grasses have proved disappointing.

Weather records for twelve years are given in the bulletin which show the average sunshine per day for nine months last year, that is from April to December, inclusive, was six hours.

French-Canadians Upheld by Currie

Proved Themselves Courageous During War Says Sir Arthur

Anglo-Saxon solidarity with French-Canadian united support, the keynote of a dinner given at Montreal by the visiting members of the Rochester, New York, Chamber of Commerce. The guest of honor was General Sir Arthur Currie, whose speech extolled the united work for civilization in the American continent of the Anglo-Saxon and French-Canadian races.

General Currie, in a special reference to the conduct of the French-Canadians during the war, said: "I happen to be in a position to speak categorically on this subject, as one who commanded the Canadian Corps during the war, and I tell you emphatically that the French-Canadians know that the French-Canadian is neither a slacker nor a coward."

Summer Carnival for Halifax

Halifax is planning an elaborate carnival to take place in August.

Practically all athletic, boating and pleasure clubs have pledged support and the Maritime amateur championship track meet will be staged. All water clubs with high regattas and speeded attraction will be a race of fishing schooners.

Can't Go Wrong on This

"When you drive into a town in Maryland, a big map painted on a blackboard at the city limits shows you where the principal thoroughfares are and how to find the road you want to take out. When you approach a curve in a Connecticut motor road, while you are in the form so that you may not run off the road and at a convenient point a signboard map charts for you the contour of that part of the road ahead which you cannot see. Things like these pay dividends in satisfaction and safety for tourists."—*Minneapolis News.*

Government Grading of Cream

Alberta claims to be the first province in the world to adopt a system of government grading of cream. Under this new system, Alberta hopes to improve the quality of cream and hence the quality of butter production, and once again to give the grower of the province butter of the quality of the Dominion's.

Hungry Children

The Important Part that Food Plays in a Child's Life

(By Lydia Lion Roberts)

A mother was looking over a box of old photographs and her little boy was an interested watcher by her side. An old picture came into view the boy exclaimed, "Whenever I see a picture of Annie Gosselin, I make her hungry." Afterwards he explained that it was because she brought him so many good things to eat.

The aunt referred to was a very young woman, yet she always managed to find time to slip a gingerbread man, or a popcorn ball, or a surprise package into her bag for the children where she visited. Another child never forgot a basket trimmed with colored tissue paper, holding some baked cookies that her aunt brought to her after she had been sick.

Food plays an important part in a child's life and a mother may teach by it as well as by other things. All children love surprises, and little faces brighten on stormy days when a raisin cake baked in their own little pan appears, or a lunch-box dinner is placed on the playroom table with dainty sandwiches and fruit, and maybe a bit of candy or nuts.

Any little boy or girl likes to learn to cook when mother is cooking, and though that is not an especially good time for mother in one way, yet in another way it is the best time, for children are happy when busy and learn quickly when interested. When mother makes bread, the little tot should have a ball of dough and a raisin or a bit of jam to make a biscuit. If the child has dishes to clean, and this is important, for there should be a small pan or unbreakable dish to do the cooking in—the work can be done exactly as mother does it and therefrom come the first lessons in cooking.

"I can turn those doughnuts," suggested a small boy to his grand-mother, who was making the toothsome goodies. She started to turn him away as she was busy and a bit nervous, but thought better of it and showed the child just how carefully it must be done. Consequently he turned every single one in a most growing-up way and informed the family proudly that night, "Grandma and I made doughnuts today."

The ten cent store has many a small tin an enamel pan that would make a start towards a little girl's cooking, and you give her much pleasure and profit if she learned to take care of the pans and to cook simple things in them. The best way of all is to suggest to a child that a biscuit be made for daddy's supper, or a tiny cake as a surprise for a playmate. Thus the lessons in cooking and giving, planning and usefulness are learned together.

Prince Interrupts Battle

Battles Declared Armistice Until Motor Had Passed

Indian tribes in old days have sometimes been suspended because the combatants were tired, or to allow them to prepare a meal, or because the weather was hot.

Thus, never until the Prince of Wales's motor drove up the Malakand Pass, on the northwest frontier of India, has a battle been interrupted on both sides to go off to see the sights.

In this part of India, on the border of Afghanistan, there is usually some sort of tribal warfare going on. Just how the peoples of Swat and Dir are at enmity, and they are fighting when the Prince drove along. But tribes were too anxious to see him that they arranged an armistice, and lined the road to get a good view.

Then, when he had passed, they were foolish enough to start fighting again.

TEN NEW STURDY CANADIANS

A family of ten leaving the homeland together to seek a home in a far country is an unusual event. Yet when the "Empress of Britain" left Liverpool towards the end of May, 1922, she had aboard amongst her third class passengers Mr. E. Hilton, aged 48 years, his wife Jane, aged 45 years, and eight children—three boys and five girls. The family are of the farming class, coming from Parkwith, Lancashire. This entire family was given a free passage to Canada by the British Overseas Settlement Committee. The Hiltons went to do farm work guaranteed by the Ontario Government.

The Hiltons left two other members of their family behind in England and these will come to Canada at a later date.

For Better Roads

Saskatchewan Good Roads Association Is Formed

At a meeting held in the office of Hon. S. J. Latta at the Parliament Buildings, the Saskatchewan Good Roads Association was formed principally for the purpose of promoting the better roads movement which has taken a firm hold in other parts of the country. Mayor Grassick, of Regina, was elected President. Hon. C. M. Hamilton, Minister of Highways, was chosen Honorary President.

Other officers elected were: Vice-President, Sheriff L. O. Calder, Saskatoon; Executive, L. A. Thornton, Dr. Henderson, J. F. Bragg, E. B. Hingley, Lieut.-Col. A. C. Garra, W. P. Hodge, Al Regina; W. E. Dennis, Saskatoon; Thomas Tetre, Marquis; D. Laycock, Swift Current.

The objects of the association are set out in this document:

(a) To create and develop public interest in good roads throughout the province of Saskatchewan;

(b) To promote wherever and whenever possible the location of a correlated system of highways;

(c) To promote the most scientific and economic methods of construction of the various types of roads suitable to traffic needs;

(d) To promote economic and effective means of maintenance of highways and the preservation of capital invested in highways;

(e) To correlate and consolidate highway sentiment in the province that ways and means for the development of highways may reach as nearly as possible the maximum of efficiency at the minimum of cost to the public.

Find New Lakes

Forestry Service Fliers Made a Number of New Discoveries in the Mountains

Several hitherto unknown lakes and river valleys have been discovered in Jasper Park, through the use of Government airplanes. This work was undertaken by the High River air station, Alberta, and three experimental flights were carried out over the region for the purpose of exploration and reconnaissance. The Canadian Air Board report states: "A flight was made on each of three successive days with gratifying success and the possibilities of the use of aircraft for exploration in mountain regions and in the administration and general maintenance of the park system were proved without a doubt."

At the conclusion of the operation, Colonel Maynard Rogers, Park Superintendent, who was taken as observer, said that the three flights expressed the opinion that sufficient reconnaissance obtained and with the rapidity with which it was possible to reach any part of the park as compared with making a similar trip by trail. In the seven hours flying over the park he claimed he travelled more distance and inspected more country than he could possibly have done by trail in six weeks or two months' hard travelling. Col. Rogers also expressed the opinion that sufficient flying had been done to demonstrate the absolute necessity of having machines stationed at Jasper Park to continue this exploration reconnaissance work, as well as for the purpose of forest fire protection.

Large Coal Output in Alberta

In spite of a strike and the gildness of the winter there was a larger production of coal in Alberta last winter than in the previous one. The total output for all kinds of coal from January 1st to March 31st, 1922, was 1,354,014 tons, as compared with 1,458,278 tons in the same period in 1921.

For the month of March the coal mined in the province was 617,021 tons compared with 432,478 last year.

Repairing Buildings

In Russian Capital

After Six Years of Neglect Moscow Showing Activity

Moscow is beginning to show some building activity. After nearly six years during which practically every private building and some public institutions were permitted to fall into disrepair, both the Soviet officials and private individuals are now in the throes of a repair campaign.

The hotel where most of the foreigners coming to Moscow are housed, and which six months ago was a nightmare of dirt, vermin and lack of service, has just been renovated and is to be put back on a re-revolution basis.

Guests, long accustomed to carrying their own water, brewing their own tea and cooking their own food in their rooms, now are becoming accustomed again to the magic use of push buttons. Elevators are to run, linen to be provided and the campaign against vermin is on in full swing.

To encourage repair of apartment buildings and detached dwellings, the city of Moscow has taken into such a state of neglect that they have been abandoned entirely, the Moscow Soviet has decided to utilize private enterprise. Persons or corporations who will take over and repair dilapidated structures, are given rent free leases on them and may rent them to whom they please. They may even transfer their leases to other persons and in these houses no limit is placed upon the amount of space any one person may occupy.

An Echo from the Past

Aged Pole Claims to be Only Survivor of Napoleon's Armies

Serge Jan Krasiński, a Pole, who says he is the only survivor of Napoleon's armies, proposes to settle down quietly for the rest of his life in the district of Rosen, where land is provided by the Polish Government for veterans of the war.

He says he fought in the battle of Borodino, 110 years ago. He was 22 years old at the time, he says, which would make him 132 now. He is still full of life and vigor and looks like a sturdy octogenarian. He was captured by the Russians at Borodino and served the greater part of the last century in the Russian army and saw service in many wars. His wife died last year in St. Russia. She was 95.

Krasiński claims he was born the year after the French revolution began. He was two years old when Moscow introduced gas lighting to the world. He was a man long before the first railway was built, and before the first steamship crossed the seas. He completed his first half century before telegraph lines were established. He was a lad of 15 years old when Nelson won the battle of Trafalgar.

Looking for Steel Galena

To meet the increased commercial demand created by the growing popularity of radio telephones, New York inventors have sent prospecting out into the mineral ranges of British Columbia in an effort to find deposits of steel galena.

French Police Use Radio

Kept Track of Holiday Crowds With Airplanes and Autos Fitted With Wireless

What deserves special emphasis is undoubtedly the actual use of wireless telephony and aeroplanes by the police for the maintenance of order on festival days and other occasions when demonstrations are possible. Nothing like enough attention has been given to this remarkable innovation. It is hard to see how there can ever be dangerous mass movements, ugly and unexpected demonstrations in future. The authorities are too well armed.

There was, of course, little fear of serious street troubles in Paris on May Day this year, in spite of the efforts of labor agitators and Communist leaders. Paris workers only meant to spend an idle rather boring twenty-four hours. But had conditions been different, the police had passions run high, these aeroplanes hovering over the city would instantly have reported any menacing concentration, and police forces would have been hurried to the spot.

The ability of the crowd to telephone instructions. They surveyed the city from the vantage point of the sky and directed the police as generals used to direct troops from a mountain top. It is doubtful whether the density of the crowd had it been possible had an aeroplane equipped with wireless telephony been able in those days to signal the gathering of groups in different parts of the city.

Probably these precautions were superfluous this year, but they are none the less significant. The aeroplanes communicated with the Prefecture of Police and the barracks of the Gendarmerie. On the streets were motor cars with wireless apparatus. The antennae stretched out ten feet above the ground. At regular intervals from each section of Paris reports arrived concerning the density of the crowd. Had it been necessary it would have been possible to have brought up reinforcements in a few minutes to any part of the city.

It will be realized that this is one of the most remarkable modern developments of police organization. Within a month or two it is expected that every police station in Paris and a number of motor car patrols can be instantaneous, situated wherever anything happens which calls for vigilance. There have recently been many crimes against society—handbags operating in motor cars, for example—and an alarm system even set at the comparatively low level of the criminal's immunity of the criminals. Henceforth wireless telephony, and at need police aeroplanes, will make it easy immediate action spread a net about the lawbreakers.

Saskatchewan Rural Schools

Reports Show that Conditions Throughout the Province are Satisfactory

A report by the chief attendance officer to the Saskatchewan Minister of Education for the month of April, dealing with the operation of rural and village schools and the attendance of pupils, has been received. Both with respect to operation and attendance, conditions throughout the province are very satisfactory. The number of schools reporting all pupils in regular attendance in April, 1921, was 570, in April, 1922, 599. Illness and bad roads are given as the main reasons for irregular attendance. The number of schools reporting as in operation in April, 1921, was 3,730, while the number reporting as in April, 1922, was 3,735.

The department has every reason to feel satisfied with the efforts that are being made by school and municipal officials to keep the schools in operation.

Separating Oil from Tar Sands

It is reported that the McMurray Asphaltum and Oil Limited of Petro-Canada, Ontario, has been granted concessions by the Dominion Government and has perfected a process for separating oil from tar sands at Fort McMurray. It is said that \$250,000 will be expended on initial work in connection with same. Nineteen hundred acres of land have been reported to have been leased to the company by the Federal Government.

Believe in Advertising

The Nova Scotia Government has under consideration the expenditure of \$150,000 in advertising the province as a tourist resort, and also in making better known her natural resources and potential wealth to the investor or intending settler.

Another PRICE Suggestion Doughnuts and Crullers

DOUGHNUTS! There is nothing more wholesome and delightful than doughnuts or crullers right-made. Their rich, golden color and appetizing aroma will create an appetite quicker than anything else in the world.

Here are the famous Dr. Price doughnut and cruller recipes:

(All measurements for all materials are level.)

DOUGHNUTS

- 3 tablespoons shortening
- 1 cup sugar
- 1 egg
- 1 cup milk
- 1 teaspoon nutmeg
- 1/2 teaspoon salt
- 4 cups flour
- 4 teaspoons Dr. Price's Baking Powder

Cream shortening, add sugar and well-beaten egg, stir in milk; add nutmeg, salt, flour and baking powder which have been sifted together and enough additional flour to make dough stiff enough to roll. Roll out on floured board to about 1/4 inch thick; cut out. Fry in deep fat hot enough to brown a piece of bread in 60 seconds. Drain on unglazed paper and sprinkle with powdered sugar.

DR.
PRICE'S
CREAM
Baking Powder

Made from Cream of Tartar, derived from grapes. Works evenly and thoroughly, adding to the healthfulness and wholesomeness of the food.

MADE IN CANADA

Send for FREE Cook Book—"Table & Kitchen"—149 Notre Dame East, Winnipeg, Can.

AFTERNOON TEA DOUGHNUTS

- 2 eggs
- 1/2 cup sugar
- 1/2 cup milk
- 1/2 cup cream
- 1/2 cup flour
- 1/2 cup baking powder

Beat eggs until very light; add sugar, salt, nutmeg and melted shortening; add milk, and flour and baking powder which have been sifted together; mix well. Drop by teaspoons into deep hot fat and fry until brown. Drain well on unglazed paper and sprinkle lightly with powdered sugar.

CRULLERS

- 4 tablespoons shortening
- 1 cup sugar
- 1 egg
- 1 cup milk
- 1 teaspoon nutmeg
- 1/2 teaspoon salt
- 4 cups flour
- 4 teaspoons Dr. Price's Baking Powder

Cream shortening; add sugar gradually and beaten egg; sift together flour, cinnamon, salt and baking powder; add one-half and mix well; add milk and remainder of dry ingredients to make soft dough. Roll out on floured board to about 1/4 inch thick and cut into strips about 1/4 inch long and 1/4 inch wide; roll in hands and twist each strip and bring ends together. Fry in deep hot fat. Drain and roll in powdered sugar.

JUST A BOY

Got to understand the lad—
He's not eager to be bad;
If the right he always knew,
He would be as old as you;
Were he now exceeding wise
He'd be just about your size;
When he does things that annoy,
Don't forget he's just a boy.

Could he know and understand,
He would need no guiding hand.
But he's young and hasn't learned
How life's corners must be turned;
Doesn't know from day to day
There is more in life than play;
More to face than selfish joy—
Don't forget he's just a boy.

Being but just a boy, he'll do
Much you will not want him to;
He'll be careless of his ways,
Have his disbeliever days,
Willful, wild, and headstrong, too,
Just as, when a boy, were you;
Things of value he'll destroy,
But reflect, he's just a boy.

Just a boy who needs a friend,
Patient, kindly to the end;
Needs a father who will show
Him the things he wants to know;
Take him with you when you walk,
Listen when he wants to talk;
His companionship enjoy;
Don't forget he's just a boy!

—Edgar A. Guest.

R. G. McNeillie, former C. P. R. district passenger agent at Calgary, becomes general passenger agent at Winnipeg, succeeding George A. Walton transferred to Montreal.

WALKING SOME!

Miss Nellie Walker, who paid Blairmore a visit on Friday, August 25th, while hiking across the continent on shank's mare, called on the mayor of Edmonton on the following Thursday. Nellie is supposed to be the world's champion lady walker, and anyone believing that the distance between Blairmore and Edmonton can be covered in less than six days might perhaps believe that all her cruise from Boston to Seattle and back through Canada to the Atlantic seaboard, visiting enroute every state and provincial capital, is being done on foot.

Crows' Nest Pass golf tournament at Cranbrook on Saturday and Sunday last.

Very few local parties took in the opening day of the season on the duck grounds. Those who went out were well repaid.

Duncan McDonald, superintendent of mine rescue and first aid for the province, was in town on Tuesday, returning from Fernie.

—IS IT A QUESTION OF—

Where To Go

THAT KEEPS YOU FROM TAKING A
HOLIDAY TRIP

Then let us help you to solve it by suggesting

"The National Way"

TO

PACIFIC COAST

EASTERN CANADA

CANADIAN NATIONAL offers a diverse route to the Pacific Coast, going by rail and steamship, returning all rail, or vice versa, thus giving passengers the advantage of delightful boat trip as well as travelling over entirely different territory in each direction. The Northern Canadian Rockies, traversed by the Canadian National, afford the finest mountain scenery to be found on this continent and so vast that it is always new. To make your trip complete a few days should be spent at Jasper Park Lodge.

THERE is nothing that will contribute so much to the enjoyment of your trip or holiday as travelling Canadian National to Port Arthur or Duluth, thence steamers of the Northern Navigation. In connection with this summer trip east, there is the opportunity of returning by a cool all air route, the Canadian National route a comfort given route and comfort given train. East by boat, west by rail, or vice versa, or all rail in both directions.

SPECIAL SUMMER FARES NOW IN EFFECT

THE "NATIONAL" operates daily between Winnipeg, Port Arthur and Toronto, carrying a modern and up-to-date equipment.

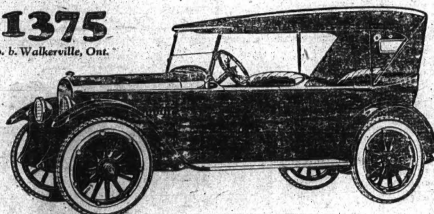

There is a wide choice of routing and stop-over privileges, enabling you to cover new ground in both directions.

Any agent will assist with your trip, Route Fares, make Reservations and look after all details.

CANADIAN NATIONAL RAILWAYS

STUDEBAKER LIGHT-SIX

\$1375
f. o. b. Walkerville, Ont.

COMPARE the Studebaker Light-Six, at its new low price of \$1375, with cars of even higher price. Note its greater intrinsic value, which is evidenced by such refinements and features of construction as:

Completely machined crankshaft and connecting rods; aluminum detachable head motor; four-bearing, bronze-backed crankshaft; silent timing chain; thermostatically-controlled cooling system. Cowling ventilator; parking lights; thief-proof transmission lock, reducing insurance rate 15 to 20%; large rectangular plate glass window in rear; genuine leather upholstery; seat cushions, nine inches deep.

In addition, you get the in-built Studebaker durability, economy of operation and comfort which owners the world over find in their Studebaker cars. And your purchase is safeguarded by Studebaker's seventy years of experience in building vehicles of all kinds—a record which no other manufacturer can equal.

Come today and see this remarkable value—the Studebaker Light-Six at \$1375.

CROWS' NEST PASS MOTORS

Agents and Distributors Crows' Nest Pass District, Blairmore

THIS IS A STUDEBAKER YEAR

The Patronage You Don't Get

is the costliest thing in store keeping.

The atmosphere of success should prevail in your store and your advertising.

The merchant who is sure he could get out a better paper than the editors do, has a great chance in his store advertising to show his ability at making news readable and at making facts interesting. He can make his store news the most interesting thing in the paper and when he does that he is on the high road to making more money than a dozen editors make.

Advertising that sells the goods is successful advertising, and advertising in The Enterprise is successful advertising because it sells the goods and there is no patronage that you do not get.

Our advertisements are read by the people who buy.

The British parliamentary party have arrived at Montreal to make a tour of Canada.

Miss Katherine Gibeau was down from Calgary to spend the holiday with her parents.

Yes, we knew a plumber who once brought with him all the tools he needed to complete a job.

Mrs. Knapman and Miss Louise left the early part of the week for Nelson, where they are spending a couple of weeks.

Mr. and Mrs. R. Hansford returned to Calgary last week and after two weeks' visit with Mr. and Mrs. J. M. Carter.

A little boy at the local school was asked by his teacher to compose a story on aeroplaning. The boy started out to relate a trip around the world. All went well, the captain of the machine simply having to wireless for oil and gas once a day, but kept on going till they were over the Frank slide when they had a blow out, punctured two tires and had to come down.

Dr. and Mrs. H. A. MacDonald have returned to Hillcrest, after a couple of months' visit to points in Ontario and south.

Many a wise young man put off the wedding until after the war, and now wishes he had put off the war until after the wedding.

Dr. J. Olivier accompanied Mr. Harry Gates, of Coleman, to Calgary on Sunday night. Mr. Gates is seeking special medical attention.

It is said that only two Canadians have annual incomes of over a million dollars. And we have been wondering who the other fellow is.

A baptismal service will be held following the evening service at the Union church on Sunday next. The attention of all children ready for baptism is directed to this notice.

During the past year, big game hunters in Alberta shot 1,016 moose, 68 caribou, 108 mountain sheep, 47 mountain goat and 1,120 deer. There were 5,209 licenses issued.

Nine men, including four Japanese and two Chinese, were killed in a mine at Cumberland, B.C., on Thursday last, following an explosion and cave in. Fourteen others were injured.

The Kipcardine Review remarks: "The doctors say that Lord Northcliffe died from ulcerative endocarditis, streptococcal septicaemia and terminal syncope. That's enough to kill anyone."

S. Troun, jeweler, has purchased a new Ford Sedan. We understand that a guarantee from Henry accompanies the car, to the effect that she will never break the speed limit law in Blairmore.

Crows, prairie chicken and Hungarian partridge are becoming so plentiful on the prairie now that it will soon be necessary for cars to push a rotary plow or road scraper ahead of them to keep the way clear.

A number of Asiatic yak have been added to the animal herd at the national park at Wainwright. It is expected they will be crossed with the buffalo and produce a useful hybrid, an experiment that will be watched with interest by zoologists.

Miss Hazel M. Brown, conservatory graduate, will re-open her class in piano instruction in Blairmore, and will take a limited number of pupils. For particulars and reservations, call at 40 State Street.

A \$750,000 sanatorium is being erected at Keswilde, B. C.

The ducks this year are not what they're quacked up to be.

Mr. and Mrs. Lance Morgan have returned from a visit to Spokane.

Some men don't get up in the world until they have been knocked down a few times.

The Misses Marquis spent the early part of the week at their home in Pincher Creek.

A man who does not advertise may know all about his own business, but no one else does.

Mrs. Allan Hamilton has returned from an extended visit to her home in Nova Scotia.

Bootleggers in British Columbia have shown no inclination to join the amalgamation of leading export firms.

British Columbia cities will now have to pay the full cost of the enforcement of the liquor act within their boundaries.

Mrs. F. W. Doubt, who underwent a major operation at the local hospital this week, is getting along splendidly—Trail News.

Trying to "shoot" off a grizzly bear, which he met in the hills near Roseland, a prospector named Conley got badly mauled.

Blairmore was so relieved of its congestion of humanity on Monday last that the few remaining took occasion to breathe freely.

Alice Longford and Dong Wing have been committed for trial at Revelstoke on a charge of attempting the murder of Mrs. C. Smith, of that town, by placing dynamite under her house.

Mr. and Mrs. Thomas Longworth and son were visitors to The Pass from Lethbridge over the week end. On Monday they took in the sports and exhibition at Bellevue before returning home.

Mrs. A. Manuel was down from Creston last week to attend the funeral of the late Fred Allott, Freddie had been a boarder with Mr. and Mrs. Manuel at the old Frank hotel for a number of years.

Rev. Father McCormick has returned to Coleman, looking exceedingly well as a result of a three months' sojourn to Eastern Canada. The reverend father spent considerable time at his old home in Alexandria.

The road to South Fork, on Cameron's flats, has become so inundated by water caused by beavers working in that neighborhood, that the government has been obliged to place men and teams to work there re-grading the road. It will be necessary to raise the road about three feet.

The German mark has gone down to about \$200 marks to the pound sterling. Reckoning the pound at the current rate of exchange of \$4.42, it would mean that Germany, at the pre-war rate of the mark, would be paying \$250 for a bushel of Canadian wheat at present prices. It is not to be surprised that Canadian wheat cannot look for a market in central Europe.

Here's a tale with a bad moral: A pathetic story reaches us from Vienna. About a year ago a man died, dividing his estate between his two sons. One of them deposited his 25,000 crowns in the savings bank, where it still remains. The other spent his heritage in the purchase of wines. He has just finished drinking these and has sold the empty bottles for 75,000 crowns.

Get your holiday films developed and printed by D. A. Howe, Phone 53.

Born, at High River on Sunday last, to Mr. and Mrs. F. W. Gurr a son.

A glutton is a person who will eat wild duck until he has to waddle.

Ralph Fasio is moving into the Sevan store just vacated by A. Brunetto.

A miner sustained slight injuries in the Hillcrest mine last evening.

Mrs. F. Weight leaves today on a combined business and pleasure trip to Ontario points.

The House of Hoberlin's representative is at the F. M. Thompson store today.

Mrs. A. Manuel, of Creston, is the guest for a few days of Mrs. J. Callan at the Bellevue Inn.

A. Brunetto has opened his new grocery and refreshment store, next door to The Enterprise.

Probably the best grain crops in the province are to be seen in the vicinity of Fishburn and south.

James Sloan, of Calgary, spent the Labor Day holiday here with his sisters, Mrs. F. M. Pinkney and Mrs. F. M. Thompson.

C. J. Tompkins has moved into his new office, next door east of The Enterprise. His line is insurance and real estate.

A yield of 42,000 bushels of wheat from 1700 acres is expected from the farms of the Ohio Farming Co., south of Lethbridge.

Mrs. H. Gibeau is this week opening up her fall display of millinery, etc., in the rooms immediately at the rear of the drug store.

The Blairmore Cash Grocery is again open for business in the new Brunetto building. The new store is well appointed and attractive.

FOR RENT—Five-roomed house one block past post office. Pantry, bath room and all modern conveniences. Apply at The Enterprise.

What Shall I Do With the Money?

Many a holder of the Canadian Government bonds maturing December 1, 1922, has been asking this question. The advertisement of the Minister of Finance supplies an answer. The investor, by giving notice to the manager of any one of the branches of a chartered bank, can arrange to get new bonds bearing the same rate of interest, the highest possible security and a liberal rate of interest.

The funeral of the late Fred Allott took place on Friday afternoon last and was about the second largest in the history of the district. A very impressive service was held at the Union church, which was crowded to overflowing with sorrowing friends. Members of the Masonic Order, the Loyal Orange association and the I. O. O. F. were in attendance, and as the remains were being laid to rest in the public cemetery the last beautiful rites of these orders were administered. Rev. W. T. Young conducted short services at the home of Mr. and Mrs. T. Barnes and at the graveside. The floral offerings which were beautiful were donated as follows: Rocky Mountain Lodge No. 86 A. F. & A. M., emblem; officials of the W. C. C. Co., anchor; No. 2 Mine Rescue Team, wreath; Bellevue I. O. O. F., 118, three links; Blairmore I. O. O. F., No. 68, three links; L. O. L., No. 1895, Coleman, Royal Arch; Blairmore Football Club, pillow; U. M. W. of A., No. 5004, wreath; West Canadian Collieries, wreath; Bob Levitt, spray; Mrs. Penman and family, spray; G. W. V. A., wreath; Mrs. W. O. Evans and Lillian, spray.

HORTICULTURAL SHOW A GREAT SUCCESS

The fifth annual exhibition under the auspices of the Bellevue and District Horticultural and Industrial Club was held at Bellevue on Monday last and was in every particular a success. The display of flowers and vegetables was equal to that of former exhibitions and afforded a difficult task for the judges. The fancy work and home cooking proved most attractive and an unusually large display was presented. The judge in this connection was Mrs. J. M. Carter, of Blairmore, whose awards were accepted favorably.

The day's proceedings started with a motor car parade at 10 a.m., when some fifty automobiles lined up in procession, decorated fittingly for the occasion. During the afternoon a programme of field sports provided entertainment for the large mass of humanity and children found enjoyment to their heart's content in the various contests.

A feature of the evening's field programme was the football game between the Lethbridge "Calles," champions of Southern Alberta, and the Bellevue team. The "Calles" found their match and it was easy to be seen that the Base team had the better in every respect. The game ended with a score of 4 to 0 in favor of Bellevue.

At night a grand ball in the new Oddfellows' hall brought the event to a climax. About two hundred couples graced the floor of the beautiful ballroom and kept a-going until well into the morning hours. Splendid music was supplied by the Pass Orchestra.

We regret that the list of prize winners is not completed ready for this issue, but we hope to give same space next week.

MUST MAKE VILLAGE LIFE WORTH LIVING

Premier Lloyd George, speaking in his native village, Llansymwyr, Wales, a few days ago, termed the continuous drift from the villages to the towns as one of the social dangers of Great Britain. The Premier said that the more he thought about this the more anxious he became. After all a country was based on the land. Of all the countries engaged in the great war, Great Britain had the smallest proportion of people whose lives were associated with the soil. For that reason Great Britain had the largest percentage of rejections for physical unfitness. "You can not," said the Premier in conclusion, "get people to live in villages unless you make life worth living there."

Local girls should take sympathy with certain Hillcrestians, who are almost nightly prowling around Blairmore during the wee hours and punishing such beautiful selections at "I ain't nobody's darling," etc.

House For Sale

West Blairmore on Lots 24 and 25. Two bedrooms, dining room, kitchen, pantries. Nice verandah in front. Small kitchen porch at back. Water and light in.
